ABOUT ME

As a recent graduate of PNY Training Lahore, I am a highly motivated and enthusiastic Full Stack Developer eager to contribute my skills to a dynamic team. My comprehensive training has equipped me with a strong foundation in both front-end and back-end technologies, including HTML, CSS, TailWind CSS, JavaScript, React, Node.js, Python, PHP, My SQL. I am a quick learner, adept at problem-solving, and passionate about creating efficient, user-friendly applications. I am seeking an opportunity to apply my knowledge, continuously grow, and make a meaningful impact in a professional development environment.

PROFESSIONAL

Full-Stack Web Developer

- As a versatile and results-oriented Full Stack Web Developer, I possess a comprehensive skill set spanning both front-end and back-end development. My expertise includes HTML, CSS, TailWind CSS, JavaScript, React, Node.js, Python, PHP, My SQL. I am passionate about building scalable, secure, and user-centric web applications from conception to deployment. With a strong focus on clean code, efficient problem-solving, and continuous learning, I am eager to contribute to innovative projects and drive successful outcomes in a collaborative development environment.

Front-end Web Developer

- As a passionate and detail-oriented Front-End Web Developer, I specialize in creating engaging, intuitive, and responsive user experiences. I am dedicated to translating design concepts into pixel-perfect and highly functional interfaces, ensuring optimal performance and cross-browser compatibility. With a keen eye for aesthetics and a commitment to user satisfaction, I am eager to contribute my skills to a forward-thinking team and build exceptional web applications.

Back-end Web Developer

- As a dedicated and analytical Back-End Web Developer, I am passionate about building robust, scalable, and efficient server-side applications and APIs. I am adept at designing and implementing complex logic, optimizing database interactions, and ensuring the reliability and performance of web services. With a strong commitment to clean code, problem-solving, and continuous learning, I am eager to contribute to innovative projects and drive the success of back-end systems.

JavaScript, React.Js & Node.Js

- As a dynamic and proficient developer, I specialize in building robust and scalable web applications leveraging the power of JavaScript, React.js, and Node.js. My expertise spans the full stack, enabling me to craft engaging front-end user interfaces with React.js, and develop efficient, high-performance back-end services and APIs using Node.js. I am adept at creating seamless user experiences, managing data flows, and implementing server-side logic, all while prioritizing clean code, modular architecture, and optimal performance. With a passion for continuous learning and a knack for problem-solving, I am eager to contribute my skills to innovative projects and deliver impactful solutions.
